*The Foreign Policy Centre is a leading British think tank, established in 1998 whose patron is the Prime Minister. We have offices in London and Beijing and have plans to open a US office. The aim, carried through research, publications and events, is to develop practical solutions to global challenges. The work is entirely focused on influencing the way foreign policy is made and carried out. Current programmes include Middle East reform, China and Globalisation, the Future of Russia, Global Europe and Democracy and Development – further details can be found at our website, [www.fpc.org.uk](http://www.fpc.org.uk)*
